Dental benefits expand on July 1, 2016: Adults may qualify for more OHP dental services

Dear CareOregon Dental member,

On July 1, 2016, the following dental services will be available for adults age 21 and older:

- Full dentures every 10 years and partial dentures every 5 years, if recommended by your dentist, no matter how long you've been without teeth
- Care for gum disease (periodontia) every six months
- Special cleaning or periodontal (gum disease) cleaning every two years
- Stainless steel crowns for molars (back teeth)

What does this mean for you?

You're getting more benefits! Adults already have basic dental care that includes exams, cleanings, fluoride, fillings and tooth removals. Starting on July 1, we also will pay for the services above if your dentist thinks you need them.

Questions?

If you have any questions about this letter or your dental care, please call your dentist. You may also call our Customer Service at 503-416-1444, or toll-free at 1-888-440-9912.

Need a dentist?

If you need help finding a dentist, you also can call our Customer Service at the number above.

Your teeth are important. We hope you will get the dental care that you need!

Sincerely,

Customer Service
CareOregon Dental
